DOORS | WINDOWS | LARGE OPENINGS

 **PHANTOM™**  
SCREENS

*Outdoor living, indoor comfort*

*Top left: The perfect combination of solar shading and fresh air ventilation.*

*Top right: Provides insect protection without obscuring your view.*

*Bottom left: Available with soft close system and latching handle.*

*Bottom right: Available in a variety of colours to suit your décor.*

## Let fresh air into your home without insects

Enjoy uninterrupted views and natural ventilation in your home combined with protection from insects and the harsh glare of the sun. Legacy screens fit to your existing door frames to create a near-invisible barrier that lets fresh air in, blocks up to 55% of UV rays and keeps insects out. You just pull the retractable mesh across when the door is open.

The screens can be colour matched to blend in perfectly with your door frame so you'll barely notice they're there. And, for your complete peace of mind, all screens are fitted by Phantom-trained design and fitting experts.

### FEATURES

Over twenty years of screening expertise.

Manufactured in the UK.

Surveyed and fitted by Phantom-trained experts.

Mechanical components covered by Phantom Lifetime Warranty.

Latching handles and soft close system available as an option.

### COLOURS & SIZES

Alongside our standard white and brown frames, Legacy screens can be finished in any RAL colour to match existing décor.

We also offer a range of wood grain finishes.

#### Single Door

#### Double Door

*\*For doors over 2130mm high, max individual screen width is 914mm.*

### MESH

Phantom Screens recommend our stiffened 18/14 mesh for doors. Please talk to our local design and fitting expert to discuss mesh for specific uses.

### Insect

Blocks up to 55% UV rays

Available in charcoal
